

Themis Tsiligkoudis

SOFTWARE DEVELOPER

Profile

Detail-oriented and self-driven .NET Developer with a track record in developing and implementing web-based solutions, maintaining, and updating web applications, and improving the whole programming process. With a deep passion for technology, extensive technological expertise, and well-developed teamwork abilities.

Employment History

Software Developer | Classter

OCTOBER 2022 — PRESENT

Fully Joined the development team for the company's main product. Resolving bugs and providing new features daily for both front and back-end development.

- Used ASP.NET, C#, HTML, CSS, JavaScript to design and develop new features for company's main product.
- Trouble-Shot and fixed any threads and Bugs.
- Maintained and refactored old features using more advanced technics.
- Over 1300 Azure work items with over 2000 working hours were solved including backlogs and bugs.

Software Developer & Technical Support Professional | Classter

MARCH 2021 — OCTOBER 2022

Provided customer support for the company's main product. Solved configuration issues through debugging. Tested every possible scenario before informing the development department about an issue. Gained good knowledge of database management and scripting through daily customer issues and demands. Created several reports with SSRS. 3000+ support cases resolved.

- 2000+ cases created on azure (either for bugs or product backlogs).
- 500+ azure cases resolved (either migration issues or report bugs).
- 400+ reports created or made further adjustments.
- 250+ scripts created by me to solve customer issues or demands.
- Good Experience in debugging and finding the source of the problem.
- Good Experience regarding external providers and third-party integrations and APIs.

Military Trooper

SEPTEMBER 2020 — MAY 2021

Joined Military. Due to my Computer Science degree, they had me working in the office where we had a lot of problems addressing daily.

- Updated a program written in Excel VBA to automatically assign soldiers in their daily jobs.
- Updated a program to automatically count the military leaves of all soldiers.
- Archived all soldier files and sorted them by years.
- Was responsible for interviewing the newcomers.
- Assisted in fixing several electronics that had issues.
